

0.01a

- allows students to sign up (very static)

0.02a

- console for admins to see who is signed up for what
- sign up page updated
 - now shows how many spots left
 - If all the spots are taken you can no longer sign up for that work shop.
- changed "student number" to record "section/year" instead

0.21a

- console for admins to create workshops

0.3a

- new users can now create accounts
- when registered users sign up for a course they don't have to fill out the form
- console for admins to add workshops

0.31a

- removed link that allowed people to sign up without creating an account
 - code still available if this is deemed a desirable feature

0.32a

- Added calendar pop up to workshop creation console
- Fixed a bug in the workshop signup page
 - if you tried to signup for the first workshop it would sign you up for workshop 2
- Minor touch ups to coding

0.33a

- Users can now see what workshops they have signed up for
- Users can now remove themselves from a workshop they have signed up for
- Users can't sign up more than once for a particular workshop
- Touch ups to the database and some of the coding
- Added a few security features

0.34a

- Workshops can now be grouped into categories from the admin console, has no effect on the user console though

- ex: Technological or Educational
- Workshops will now only appear to the correct student type
 - ex: only concurrent students will see workshops meant for concurrent students
- Allows users to list workshops in a particular category (ex: just list technological or educational workshops)
- VERY basic workshop data entry checking.

0.35a

- Users can no longer create new accounts
- Logout feature
 - Still needs to be put throughout the whole webpage
- Edited index.php

0.50b

Gone beta!

- Workshops who's date has passed will no longer appear in the list
- Users can now log out
- "slightly" better navigation
- Data checking when adding workshops
- Users can logout now
- Fixed login issue when using internet explorer (I think)
- Workshop categories are now setup to be added dynamically
 - Code is present, but option is not
- Tidied up some of the code
- Added more comments to the code

0.51b

- Change password capability
- Minor "eye appeal" enhancements

To Do List

- Data entry confirmation when creating new workshops
 - Needs work
- Allow admins to email all the people in a particular workshop
- Minor changes/additions

- ~~ability for admins to delete users from workshops (in circumstances where the user emails the prof asking to be removed)~~– Users can do this themselves now
- Rather than the tiny description, a link to a more detailed description that will open in a new window
- ~~Console for admin to add workshops~~
- ~~Ability for students to see what workshops they are current signed up for~~
 - ~~Good place for them to also remove themselves from workshops~~
- Ability to edit workshop details
- If the date of a workshop has passed simply don't show it on the list (TBD)
- Major changes/additions
 - ~~Ability for students to create their own account.~~
 - Print off certificates (TBD)
 - ~~don't allow students to sign up for the same course more than once~~
 - Make things more visually appealing
 - **BETTER NAVIGATION!**
 - Could still be improved a bit
